Software Engineer | TypeScript | JavaScript | Node.js | React | Next.js | Angular | Strapi | WordPress | Tailwind CSS | Cybersecurity

Objective

Experienced Front-End Developer specialized in WordPress, JavaScript, and modern web technologies. Proficient in React, Next.js, Angular, TypeScript, PHP, ACF, and REST APIs. Passionate about building secure, scalable, and high-performance websites with a strong focus on SEO, UX, and accessibility. Seeking to join a collaborative international team where I can apply my skills and continue growing.

Work Experience

SOFTWARE ENGINEER | FOUNDER & OWNER — WEEZAP

Weezap is a platform that streamlines billing and client communication through WhatsApp automation and AI-powered content generation.

Apr 2024 – Present | Rio de Janeiro, Brazil

- Defined system architecture (back-end, database, integrations, stack, and UI) using Next.js 14, TypeScript, Tailwind CSS, Shadcn/UI, Prisma, and PostgreSQL.
- Developed real-time features with WebSockets and implemented authentication via NextAuth.js (JWT + route protection middleware).
- Integrated external APIs, including WhatsApp Business and payment gateways.
- Applied Clean Architecture, TDD practices, and documented components with Storybook.

FULL STACK DEVELOPER — VRAUU ENERGY DRINK

Vrauu Energy Drink is a Brazilian energy drink company with global partners.

Dec 2023 – Present | Rio de Janeiro, Brazil

- Led IT projects and maintained the company's web platforms, including its e-commerce and a custom ERP built with Java and Spring.
- Utilized WordPress, WooCommerce, HTML, CSS, JavaScript, and integrated Bling API for inventory and invoicing.
- Managed Linux servers, domain configs, CPanel, backups, and server migrations. Conducted usability, performance, and security testing, implementing protection against XSS, CSRF, and SQL Injection.

FRONT-END DEVELOPER — SOMOS

Somos is a company specializing in class action management, offering services to law firms to streamline case management and client support.

Mar 2021 – Nov 2022

- Developed more than 40 websites using WordPress, Elementor, WPML, including the Mariana Dam disaster site that helped collect over 200,000 affected clients. Built a high-performance, secure site with over 1 million visits, gaining widespread attention across Europe, and maintaining uptime under heavy traffic.
- Developed a full-stack automated web aplication with Strapi, Angular, Ionic, TypeScript.
- Created an internal CMS (using Strapi) for no-code landing page generation, boosting productivity and reducing developer costs and time through its user-friendly interface.

Education
- Facuminas — Postgraduate in Cybersecurity (in progress) - Apr 2023
- Estácio de Sá University — Bachelor's in Systems Analysis and Development – 2021

Certifications
- Infrastructure and Application Modernization with Google Cloud – Apr 2025 (Google Cloud Skills Boost)
- Ethical Hacking: Reconnaissance/Footprinting – Nov 2024 (Pluralsight)
- Angular 13 Formation – Mar 2022 (Udemy)
- English Certificate – Jan 2018 (Instituto Robert Smyth)
- Pentest na Prática – Nov 2024 (Desec Security)

Languages
- English — Fluent
- Portuguese — Native

Skills & Competencies
- **Front-End Development:** React, Next.js, Angular, Ionic, JavaScript, TypeScript, Tailwind CSS, HTML5, CSS3, Responsive Design, Mobile-First, UI/UX
- **Back-End & Full-Stack:** Node.js, PHP, Java (Spring), RESTful APIs, Strapi, Prisma, PostgreSQL, MySQL
- **CMS:** WordPress and Strapi

- **DevOps & Tools:** Git, GitHub, GitLab, CI/CD, AWS, Linux Servers, CPanel, WP Engine, Insomnia, Docker (basic), Vercel
- **Testing & Best Practices:** TDD, Clean Architecture, Web Security (XSS, CSRF, SQL Injection), Performance Optimization, Lighthouse
- **Automation & Integrations:** WhatsApp Business API, Payment Gateways, External API Integrations
- **Cybersecurity:** Vulnerability Assessment, Ethical Hacking, Penetration Testing, Secure Coding Practices
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Agile/Scrum Methodology, Technical Documentation
